Specifications

- UV resistant santoprene
- Brass contacts
- Available in all gauges
- -40°C to 105°C
- 400 A; 600 V

EXTENSION CORDS

12/3 HEAVY DUTY EXTENSION CORD SET

Applications

Designed for indoor and outdoor heavy industrial use. Meets or exceeds all UL and OSHA requirements.

- -35°F Temperature range, no cracking or breaking
- Rugged, molded-on lit connectors
- Every cord is tested for indoor and outdoor use
- Contractor approved

Construction

- Highly flexible 30 gauge copper
- Insulated with SJTW jacket
- -37°C to +60°C (-35°F to 140°F)
- Labeled, boxed and shrink wrapped
- Available in 25', 50', and 100' Sets

Value-Added Services

» Direct Repair

Direct Repair is our in-house maintenance and replacement program that helps customers lower their total cost of ownership, avoid unplanned maintenance, and improve uptime and performance. From Direct Wire's specially equipped workshop, our qualified professionals carry out thorough product inspection, length adjustment, connector replacement, and spark testing.

Direct Repair Process Overview

1. Product is received and entered into Direct Repair system. Primary inspection is conducted and quote is submitted to customer for approval.
2. Customer approves repair and technical personnel is assigned. Product is assessed for additional faults, staged, and disassembled.
3. Product repair is carried out and spark testing is conducted. Completed repair is sent to cleaning station and final quality check.
4. Repaired product is packaged and prepared for return shipping to customer. Final invoice is generated after shipment.

» Copper Recycling

Adhering to ethical and sustainable operations, Direct Wire offers a unique Copper Recycling Program to provide a competitive scrap return solution for customers – taking back copper wire and cable products, whether ours or those made elsewhere.

This convenient process offers simple and consistent rates based on COMEX market pricing, with the dollar value applied as a credit towards future orders.

We maintain industry best practices for safe and responsible recycling, delivering a valuable, secure, and environmentally conscience service to our customers.

» Private Labeling

Direct Wire offers a private labeling option to select wholesale and distribution partners who need exclusivity while filling inventory gaps or broadening portfolios. This strategic program keeps manufacturing and quality systems under our control, while private label partners are empowered to market and sell under their established brand.

As no two companies have identical needs, no two private labeling agreements are the same. Combining our manufacturing capacity and expertise with each partner's unique specifications delivers a flexible, individualized, and mutually beneficial solution for business growth and competitive advantage.

» Fulfillment

Direct Wire's production facilities and order entry systems are networked in real-time with our distribution warehouses in Denver, PA, Houston, TX, Portland, OR, and Los Angeles, CA. This level of advanced integration, paired with our nationwide footprint, brings speed, simplicity, and efficiency to the fulfillment process—ensuring customers receive the correct product when and where it is needed.

Speed & Accuracy

Stock orders are rapidly fulfilled the same or next business day from our distribution facilities. We have processes in place that ensure proper inventory levels and order accuracy, giving customers peace of mind that they are receiving the correct product on time, every time.

Simplifying Freight

Our strategically located distribution facilities translate to a fast and efficient shipping experience, with industry-best lead times, online shipment tracking capabilities, as well as reduced overall transportation and freight costs.

Returns & Recycling

In the event of a new product or scrap recycling return, Direct Wire's customer service team will assist our customers with processing a replacement order or applying credit towards future orders.
